## PROTAGONISTI NEI PAVIMENTI OUTDOOR

Con un grande piano di investimenti tecnologici Ceramica Castelvetro si schiera tra i protagonisti nel settore del gres porcellanato spessorato.

### LEADING PLAYERS IN OUTDOOR FLOORING

With a large-scale plan of technological investments, Ceramica Castelvetro is one of the leading players in the field of extra thick porcelain stoneware.

### PROTAGONISTES DES SOLS EXTÉRIEURS

Grâce à un grand plan d'investissements technologiques, Ceramica Castelvetro compte parmi les protagonistes du secteur du grès cérame à épaisseur majorée.

### DIE HAUPTDARSTELLER IM OUTDOOR-BEREICH

Mit groß angelegten technischen Investitionen gehört Ceramica Castelvetro zu den wichtigsten Playern auf dem Sektor der extradicken Feinsteinzeugfliesen.

AVANGUARDIA  
TECNOLOGICA  
**100%**  
**MADE IN ITALY**

Nuove tecnologie coinvolgono l'intero ciclo produttivo, utilizzando le soluzioni più avanzate: dalla pressa alla decorazione digitale, dal reparto taglio e rettifica al packaging flessibile.

ADVANCED TECHNOLOGY  
**MADE ENTIRELY  
IN ITALY**

New technologies involve the whole production cycle, using the most advanced solutions, from the press to digital decoration, from the cutting and grinding department to flexible packaging.

AVANT-GARDE  
TECNOLOGIQUE 100%  
**MADE IN ITALY**

De nouvelles technologies sont appliquées à tout le cycle de production et utilisent les solutions les plus avancées: de la presse à la décoration numérique, de l'atelier de coupe et de rectification au packaging flexible.

TECNOLOGISCHE  
AVANTGARDE 100%  
**MADE IN ITALY**

Neue Technologien, die den gesamten Produktionsprozess betreffen und dabei die fortschrittlichsten Lösungen umfassen: vom Pressen bis hin zur digitalen Dekoration, vom Schneiden bis zur flexiblen Verpackung.

# MATERIA

extra spessore, extra prestazioni.

Lastre in gres porcellanato extraforte ad altissime prestazioni: inalterabili nel tempo, impareggiabili per resistenza e facilità di manutenzione.

## MATERIAL

extra-thickness, extra-performance.

Extra-strong very high performance porcelain stoneware tiles: no alterations in time, unequalled in strength and ease of maintenance.

### 1. RESISTE AGLI SBALZI TERMICI

Che sia il freddo estremo del nord o i brucianti raggi dei tropici, o tutte e due le cose assieme, il gres porcellanato ad alta tecnologia non teme le temperature e gli sbalzi termici.

#### WITHSTANDS TEMPERATURE CHANGES

Whether in the extreme cold of the North or under the burning tropical rays, or both together, high-technology porcelain stoneware does not fear temperatures or their sudden changes.

#### RESISTE AUX ECARTS DE TEMPERATURE

Que ce soit le froid extrême du nord ou les rayons brûlants des tropiques, ou encore les deux conditions réunies, le grès cérame haute technologie ne craint ni la chaleur ni le froid, pas même les écarts de température.

#### TEMPERATURBESTÄNDIGKEIT

Ob der heißend kalte Winter im Norden oder die sengende Sonne der Tropen oder auch beides zusammen – das technologisch hochentwickelte Feinsteinzeug ist absolut temperaturbeständig.

## MATIERE

épaisseur extra, performances extra.

Carreaux en grès cérame extrafort et très hautes performances: inaltérables dans le temps, inégalables par leur résistance et leur facilité d'entretien.

### 2. FACILE DA PULIRE

La superficie, anche se antiscivolo, è compatta e impermeabile: questo facilita le operazioni di pulizia quotidiana o stagionale, anche con idropulitrici e detergenti energici.

#### EASILY CLEANED

The surface, even if non-slip, is compact and waterproof. This makes the daily or seasonal cleaning operations easier, even those using high-pressure water-jet cleaning machines and tough detergents.

#### FACILE A NETTOYER

La surface, même si elle est antidérapante, est compacte et imperméable: cela facilite les opérations de nettoyage quotidien ou saisonnier, même avec des nettoyeurs haute pression et des détergents énergiques.

#### LEICHT ZU REINIGEN

Die Oberfläche ist – auch wenn sie rutschsicher ist – kompakt und wasserundurchlässig. Das erleichtert das Putzen, täglich oder saisonal, auch mit Hochdruckreinigern und starken Reinigungsmitteln.

## MATERIE

extradicke Fliesen für besondere Leistungen.

Die extradicken Feinsteinzeugfliesen sind besonders leistungsstark: standfest und mit einer einmaligen Strapazierfähigkeit bei problemloser Instandhaltung.

### 3. FACILE DA POSARE

Per giardini e arere all'aperto, è possibile posare le lastre a secco su erba, sabbia o ghiaia senza avere competenze o attrezzature specifiche.

#### EASILY LAID

In gardens and outside areas, it is possible to lay the tiles dry on earth, sand or gravel without particular skills or specific equipment.

#### FACILE A POSER

Pour les jardins et les espaces à ciel ouvert, il est possible de poser les carreaux à sec sur de l'herbe, du sable ou du gravier, sans avoir de compétences ou d'équipements spécifiques.

#### LEICHT ZU VERLEGEN

Für Gärten und Außenbereiche – die Platten können trocken auf Rasen, Sand oder Kies verlegt werden, ohne dass besondere Fähigkeiten oder spezielle Ausrüstung erforderlich sind.

#### 4. RESISTE ALLE MACCHIE

Il gres porcellanato non assorbe le sostanze macchianti: olio da motore, tracce di pneumatici, grassi del barbecue o verderame sono facili da rimuovere utilizzando senza problemi i detergenti adeguati.

##### WITHSTANDS STAINING

Porcelain stoneware does not absorb staining products: engine oil, tyre marks, barbecue grease or copper sulphate are easy to remove without problems using the appropriate detergents.

##### RESISTE AUX TACHES

Le grès cérame n'absorbe pas les substances qui provoquent des taches: huile de moteur, traces de pneus, graisses de barbecue ou vert-de-gris sont faciles à éliminer en utilisant sans problèmes les détergents adéquats.

##### FLECKENFEST

Feinsteinzeug absorbiert keine fleckenverursachenden Substanzen: Motoröl, Reifenspuren, Fett von Grillfesten oder kupferhaltige Pflanzenschutzmittel lassen sich mit Hilfe geeigneter Reinigungsmittel problemlos entfernen.

#### 5. CONTINUITÀ PROGETTUALE

Tutte le lastre 20mm sono disponibili anche nello spessore standard con molteplici formati, garantendo una perfetta coordinazione tra pavimenti e rivestimenti interni-esterni.

##### DESIGN CONTINUITY

All the 20 mm tiles are also available in the standard thickness in many formats, thus guaranteeing perfect co-ordination between indoor and outdoor flooring and coverings.

##### CONTINUEITE DE CONCEPTION

Tous les carreaux de 20 mm sont également disponibles dans l'épaisseur standard dans de nombreux formats, ce qui garantit une coordination parfaite entre sols et revêtements intérieurs-externes.

##### KONTINUITÄT BEI DER GESTALTUNG

Alle 20 mm dicken Fliesen sind auch mit zahlreichen Formaten in der Standarddicke erhältlich – für eine perfekte Koordination zwischen den Fußböden und Verkleidungen im Innen- wie im Außenbereich.

#### 6. ANTISCIVOLO

La finitura di superficie offre adeguate caratteristiche antiscivolo anche in presenza d'acqua, sia che si tratti di lastre con estetica effetto pietra, cemento o legno.

##### NON-SLIP

The surface finish offers adequate non-slip characteristics even when there is water present, whether the tiles have a stone-like, a concrete-like or a wood-like appearance.

##### ANTIDERAPANT

La finition de surface offre des caractéristiques antidérapantes adéquates, même en présence d'eau, quelle que soit l'esthétique des carreaux, effet pierre, béton ou bois.

##### RUTSCHFESTIGKEIT

Die Oberflächengestaltung ist besonders rutschfest, auch bei Wasser – egal, ob es sich um Fliesen in Holz-, Beton- oder Steinoptik handelt.

#### 7. ECOLABEL

Le collezioni OUTFIT2.0 sono certificate ECOLABEL, il marchio europeo che segnala ai consumatori prodotti sicuri e con un basso impatto sull'ambiente nell'intero ciclo produttivo.

##### ECOLABEL

The OUTFIT2.0 collections are certified ECOLABEL, the European mark that highlights for consumers safe products and with a low impact on the environment throughout the production cycle.

##### ECOLABEL

Les collections OUTFIT2.0 sont certifiées ECOLABEL, la marque européenne qui signale aux consommateurs des produits sûrs et dont tout le cycle de production a un faible impact sur l'environnement.

##### ECOLABEL - UMWELTFREUNDLICH

Die Kollektionen OUTFIT2.0 tragen das europäische Markenzeichen ECOLABEL, das dem Verbraucher ein sicheres Produkt mit geringen Umweltauswirkungen beim gesamten Produktionszyklus anzeigt.

## 8. FACILMENTE ISPEZIONABILE

Nella posa sopraelevata è possibile sollevare le lastre ispezionando l'intercapedine, che può nascondere tubature e canalizzazioni. Le lastre posate a secco sono sempre rimovibili e riposizionabili.

### EASY TO INSPECT

When laid raised, it is possible to lift the tiles to inspect the hollow space underneath them which may conceal piping and channels. Tiles laid dry can always be removed and repositioned.

### FACILITE D'INSPECTION

SDans le cas de la pose surélevée, il est possible de soulever les carreaux pour inspecter le vide, dans lequel peuvent passer des tuyauteries et des canalisations. Il est toujours possible d'enlever et de remettre en place les carreaux posés à sec.

### LEICHT ZU KONTROLLIEREN

Bei der erhöhten Verlegung können die Platten angehoben und der Zwischenraum kontrolliert werden, der Leitungen oder Kanäle enthalten kann. Die trocken verlegten Platten lassen sich jederzeit entfernen und wieder anbringen.

## 9. RESISTE AI CARICHI PESANTI

Le lastre offrono una resistenza a carichi eccezionalmente elevata, anche rispetto ad altri materiali di maggior spessore. Se posate su massetto sono carrabili con autovetture.

### WITHSTANDS HEAVY LOADS

The tiles are able to withstand exceptionally heavy loads, even compared with other thicker materials. If laid on a screed they can be driven over by motor-cars.

### RESISTE AUX LOURDES CHARGES

Les carreaux offrent une résistance aux charges exceptionnellement élevée, même par rapport à d'autres matériaux plus épais. S'ils sont posés sur une chape, le passage de voitures est possible.

### BESONDERS BELASTUNGSFEST

Die Fliesen halten auch starken Belastungen stand, auch bezogen auf andere und dickere Materialien. Bei Verlegung auf dem Estrich können sie auch von Fahrzeugen befahren werden.

## 10. ELEVATA DURABILITÀ

Usura, calpestio e agenti atmosferici non alterano l'estetica e le caratteristiche delle lastre. Qualunque sia l'estetica - legno, pietra o cemento- saranno sempre belle e performanti come il primo giorno.

### GREAT DURABILITY

Wear, treading and the atmosphere do not affect the appearance or the characteristics of the tiles. Whatever they look like - wood, stone or concrete - they will always look good and perform just as well as on the first day.

### DURABILITE ELEVEE

Usure, passage de piétons et agents atmosphériques n'altèrent pas l'esthétique et les caractéristiques des carreaux. Quelle que soit l'esthétique - bois, pierre ou béton - ils seront toujours aussi beaux et performants qu'au premier jour.

### BESONDERS STANDFEST

Verschleiß, Begehung oder Witterungseinflüsse können der Schönheit und den Eigenschaften dieser Fliesen nichts anhaben. Egal, wie die Optik ist - Holz, Stein oder Beton - sie sind immer schön und leistungsstark wie am ersten Tag.

## 11. MONOLITICO

Lastre in gres porcellanato di ultima generazione, dove la superficie è un tutt'uno con la materia: un corpo unico e straordinariamente compatto grazie alla pressatura di 7000 ton. e alla cottura ad oltre 1200°C.

### MONOLITHIC

Latest-generation porcelain stoneware tiles, where the surface is as one with the matter: a single and extraordinarily compact body thanks to the 7000 M/T pressing and the kiln baking at over 1200°C.

### MONOLITHIQUE

Carreaux en grès cérame de dernière génération, où la surface ne fait qu'un avec la matière: un corps unique et extraordinairement compact grâce au pressage de 7000 tonnes et à la cuisson à plus de 1200°C.

### AUS EINEM STÜCK

Feinsteinzeugfliesen der neuesten Generation, wo die Oberfläche und die Materie eins sind - ein einziger und besonders kompakter Körper, dank der Pressung mit 7000 Ton und dem Brennen mit über 1200°C.

# UTILIZZI

Per tutte le aree esterne

Giardini privati, villaggi turistici, aree wellness, terrazze e spazi all'aperto di ristoranti e hotel: sono solo alcune delle infinite applicazioni delle lastre high.-tech OUTFIT 2.0.

## USES

For all outside areas

Private gardens, tourist villages, wellness areas, terraces and open-air areas of restaurants and hotels are just a few of the infinite applications of OUTFIT 2.0 high-tech tiles

## UTILISATIONS

Pour tous les espaces extérieurs

Jardins privés, villages touristiques, centres de bien-être, terrasses et espaces à ciel ouvert de restaurants et hôtels ne sont que quelques-unes des innombrables applications des carreaux high-tech OUTFIT 2.0.

## ANWENDUNGEN

Für alle Außenbereiche

Privatgärten, Feriendörfer, Wellnessbereiche, Terrassen, Außenbereiche von Restaurants und Hotels – das sind nur einige der unendlich vielen Anwendungen für die Fliesen high.-tech OUTFIT 2.0.

## 1. GIARDINI

Per piccoli giardini privati e grandi parchi pubblici: con disposizione irregolare per camminamenti casuali o allineata in vialetti geometrici o spazi più ampi. Anche combinando diversi tipi di posa.

### GARDENS

For small private gardens and large public ones with irregular arrangements for casual footpaths or aligned in geometrical walkways or larger spaces. Even combining different laying styles.

### JARDINS

Pour les petits jardins privés et les grands parcs publics: avec une disposition irrégulière pour des allées au tracé non géométrique ou en alignement, sur des parcours géométriques ou de plus grands espaces, ou encore en combinant différents types de pose.

### GÄRTEN

Für kleine Privatgärten und große öffentliche Anlagen: mit einer unregelmäßigen Anordnung für zufällige Wege oder für geometrisch angelegte Wege, wobei die verschiedenen Verlegungstypen auch miteinander kombiniert werden können.

## 2. TERRAZZE

Nelle terrazze residenziali e nei roof garden di bar e ristoranti, con posa sopraelevata o su ghiaia unisce estetica e funzionalità aumentando la coibentazione dell'edificio.

### TERRACES

On residential terraces and on the roof gardens of bars and restaurants, laid at a raised level or on gravel, to combine aesthetics and functional qualities, increasing the insulation of the building.

### TERRASSES

Sur les terrasses résidentielles ou les roof gardens de cafés et restaurants, en pose surélevée ou sur du gravier, il allie esthétique et fonctionnalité tout en améliorant le calorifugeage du bâtiment.

### TERRASSEN

Bei bewohnten Terrassen und bei den Dachgärten von Bars und Restaurants: die schwimmende Verlegung oder die Verlegung auf Kies vereint Ästhetik und Funktion und verbessert die Dämmung des Gebäudes.

## 3. CARRABILI

L'Estetica raffinata dei grandi formati pavimenta vialetti e aree parcheggio, che grazie alla posa a colla sono perfettamente carrabili con auto. E le tracce di gomme e olio sono sempre rimovibili.

### DRIVEWAYS

The refined appearance of large size tiles is perfect for walkways and parking areas that, thanks to the fact that the tiles are laid with adhesives, they can be passed over perfectly by cars, and the rubber and oil marks can always be removed.

### CARROSSABLES

L'Esthétique raffinée des grands formats revêt allées et parkings qui, grâce à la pose collée, sont parfaitement carrossables. Et les traces de pneus et d'huile peuvent toujours être éliminées.

### BEFAHRBARE WEGE

Die ausgesuchte Schönheit der großen Formate eignet sich für Wege und Parkplätze, die sich dank der Verklebung auch befahren lassen. Dabei lassen sich Reifenspuren und Ölflecke jederzeit beseitigen.

## 4. SPIAGGE

La miglior soluzione per i camminamenti della spiaggia e l'area bar-ristorante: lastre facili da spostare e riposizionare, sempre belle e raffinate nonostante il sole, la salsedine, la sabbia.

### BEACHES

The best solution for walkways on beaches and bar and restaurant areas: tiles that are easy to move and reposition, remaining attractive and refined in spite of the sun, the salt and the sand.

### PLAGES

La meilleure solution pour les allées sur la plage et dans le coin café-restaurant: des carreaux faciles à déplacer et à remettre en place, toujours beaux et raffinés malgré le soleil, les embruns, le sable.

### STRÄNDE

Die beste Lösung für Wege am Strand und den Restaurantbereich: die Platten lassen sich leicht entfernen und neu verlegen, sind immer schön und elegant – da ihnen Sonne, Salz und Sand nichts anhaben!

# POSA

tipologie

Le lastre ad alto spessore sono autoportanti: sono posabili a secco, in sopraelevato o a colla per cortili carrabili con auto.

## LAYING

typologies

The extra thick tiles are self-supporting: they can be laid dry, raised or with an adhesive on yards to be driven over by cars.

### 1. A COLLA SU MASSETTO

La posa a colla, su un idoneo sottofondo, rende i pavimenti carrabili con auto anche con formati di 60x60cm e oltre. Ideale per dare un'estetica speciale a vialetti, rampe garage e posti auto esterni.

#### WITH ADHESIVE ON A SCREED

Laying with an adhesive in a suitable foundation makes it possible to drive over flooring with cars even considering a format of 60 x 60 cm or more. Ideal for giving paths, ramps leading to garages and outside parking areas a special look.

#### POSE COLLEE SUR CHAPE

La pose collée, sur un support adéquat, rend les sols carrossables, même avec des formats 60x60 cm et plus. Idéale pour donner une esthétique particulière aux allées, aux rampes de garages et aux places auto extérieures.

#### MIT KLEBER AUF ESTRICH

Die Verklebung auf geeignetem Untergrund eignet sich für mit dem Auto befahrbare Böden mit den Formaten 60x60cm und auch größer. Ideal für besonders ansprechende Wege, Garagenauffahrten und Autostellplätze.

### 2. SOPRAELEVATA

Per terrazze, balconi, dehor di bar e ristoranti. I supporti, in varie tipologie, compensano le irregolarità del fondo. Ideale per coprire tubature e cavi, Permette un eccellente drenaggio dell'acqua.

#### RAISED LAYING

For terraces, balconies, outside areas of bars and restaurants. The different types of supports can make up for the irregularities of the underlying surface. Ideal for covering piping and cables. This system enables excellent draining away of water.

#### POSE SURELEVEE

Pour terrasses, balcons, extérieurs de cafés et restaurants. Les supports, de différents types, compensent les irrégularités du support. Cette pose est idéale pour couvrir tuyauteries et câbles, et permet un excellent drainage de l'eau.

#### ERHÖHT

Für Terrassen, Balkone, Außenanlagen von Bars und Restaurants. Die Unterlagen verschiedener Art gleichen die Unregelmäßigkeiten des Untergrunds aus. Ideal, um Leitungen und Kabel zu verstecken. Besonders gute Wasserdrainage.

## POSE

types

Les carreaux de forte épaisseur sont autoportants: ils peuvent être posés à sec, surélevés ou collés pour des cours carrossables.

### 3. A SECCO SU ERBA

Una soluzione facile, immediatamente fruibile, con pavimentazioni riposizionabili e riutilizzabili. Per aree verdi private o pubbliche, supera tutti i materiali alternativi per estetica, funzionalità e durata.

#### DRY ON GRASS

An easy solution, immediately available for use, with flooring that can be repositioned and reused. For private or public green areas, better than all alternative materials in terms of appearance, functional qualities and lifetime.

#### POSE A SEC SUR HERBE

Une solution facile, qui permet une utilisation immédiate, avec des revêtements de sol qu'il est possible de remettre en place et de réutiliser. Pour les zones vertes privées et publiques, elle est supérieure à tous les matériaux alternatifs par son esthétique, sa fonctionnalité et sa durée.

#### TROCKEN AUF RASEN

Eine einfache und sofort nutzbare Lösung mit Böden, die sich neu verlegen und verwenden lassen. Für öffentliche und private Grünflächen und viel besser als alle Alternativen – bezogen auf Schönheit, Funktion und Standfestigkeit.

## VERLEGUNG

Verlegetypen

Die extradicken Fliesen sind selbsttragend: sie können trocken verlegt und – für befahrbare Flächen – verklebt werden.

### 4. A SECCO SU GHIAIA

Facilità e velocità di posa, estetica raffinata e eccellente drenaggio dell'acqua piovana sono le caratteristiche di un sistema di posa che permette sempre di recuperare e riposizionare le lastre.

#### DRY ON GRAVEL

Easy and quick to be laid, refined appearance and excellent draining away of rainwater are the characteristics of a laying system that always enables the tiles to be recovered and repositioned.

#### POSE A SEC SUR DU GRAVIER

Facilité et rapidité de pose, esthétique raffinée et excellent drainage de l'eau de pluie sont les caractéristiques d'une technique de pose qui permet de récupérer les carreaux et de les remettre en place.

#### TROCKEN AUF KIES

Eine schnelle und einfache Verlegung, ausgesuchte Schönheit und besonders gute Drainage des Regenwassers für eine Verlegung, die es jederzeit gestattet, die Platten zu entfernen und neu zu verlegen.

### 5. A SECCO SU SABBIA

La posa tipica degli stabilimenti balneari, nei percorsi-spiaggia e nelle aree di ristorazione. Un materiale dall'estetica sofisticata, indifferente al sole e alla salsedine, pratico da riposizionare ad ogni stagione.

#### DRY ON SAND

The typical style for laying at the seaside, in paths on beaches and in catering areas. The material has a sophisticated look and is not damaged by sun or salt. It is handy to reposition each season.

#### POSE A SEC SUR DU SABLE

La pose typique des établissements balnéaires, sur les parcours plage et dans les zones de restauration. Un matériau à l'esthétique sophistiquée, exposé ou non au soleil ou aux embruns, pratique à remettre en place à chaque nouvelle saison.

#### TROCKEN AUF SAND

Die typische Verlegung bei Strandbädern, bei Strandwegen oder bei Restaurants. Ein Material von ausgesuchter Schönheit, dem Sonne und Salz nichts anhaben und das für jede Saison neu verlegt werden kann.

# EFFETTO LEGNO

Tutta la bellezza e il calore del legno, nelle sue variazioni di venatura e di essenza, in un materiale inalterabile all'acqua, al sole e al gelo.

## WOOD-LIKE EFFECT

All the beauty and warmth of wood, with its different types of streaks and different species, in a material that is not damaged by water, sun or freezing.

## EFFET BOIS

Toute la beauté et la chaleur du bois, dans ses variations de veines et d'essences, dans un matériau inaltérable à l'eau, au soleil et au gel.

## HOLZOPTIK

Die Schönheit und die Wärme des Holzes mit all seinen Maserungen und Sorten - in einem wasser-, wetter- und frostfestem Material.

# AEQUA TUR

40x120 RETT.

# EFFETTO PIETRA

Il fascino e la suggestione di pietre naturali, così autentiche nella ricchezza di colori e sfumature, straordinariamente resistenti all'usura e alle sollecitazioni del tempo.

DCOF= > 0,42  
DIN51097=A+B+C  
DIN51130=R11  
EN1339=U11

## STONE-LIKE EFFECT

The fascination and suggestion of natural stones, so genuine in terms of the richness of colours and shades, extraordinarily resistant to wear and to the stresses of weathering.

## EFFET PIERRE

Le charme et la suggestion de pierres naturelles, si authentiques dans la richesse de couleurs et de nuances, extraordinairement résistantes à l'usure et aux contraintes du temps.

## STEINOPTIK

Die Faszination und die Stimmung der Natursteine – so authentisch in der Vielfalt der Farben und Abstufungen und dabei dauerhaft besonders verschleißfest.

SUGGERIMENTI

# POSA A **COLLA** SU MASSETTO

Il sottofondo deve essere realizzato a regola d'arte e adeguatamente rinforzato se carrabile.  
Prevedere le necessarie pendenze e impermeabilizzazioni nel caso di posa su strutture portanti.

## SUGGESTIONS LAYING WITH ADHESIVE ON A **SCREED**

The foundation must be made really properly and suitably reinforced if it is to be driven over by cars.  
If laid on load-bearing structures, plan the necessary slopes and waterproofing.

- 1 Apply the adhesive spreading two layers, one on each surface (on the tile and on the foundation).
- 2 Arrange gaps of 3-5 mm between the tiles using the cross spacers provided for this purposes.
- 3 Upon completion, clean the surface thoroughly removing all residues of plaster and adhesive.

## CONSEILS POSE COLLEE SUR **CHAPE**

Le support doit être réalisé dans les règles de l'art et renforcé de façon adéquate s'il est carrossable.  
Prévoir les pentes et les imperméabilisations nécessaires en cas de pose sur des structures portantes.

- 1 Appliquer la colle sur les deux surfaces (carreau et support).
- 2 Prévoir un joint de 3-5 mm en utilisant les croisillons spécialement prévus.
- 3 Après la pose, nettoyer soigneusement la surface afin d'éliminer tout résidu de mastic et de colle.

TIPPS

## **VERKLEBUNG AUF ESTRICH**

Der Untergrund muss fachgerecht ausgeführt und bei Befahrung auch angemessen verstärkt werden.  
Bei Verlegung auf tragenden Strukturen die notwendigen Schrägen und Abdichtungen vorsehen.

- 1 Den Kleber doppelt auftragen, d.h. auf beiden Oberflächen (Fliese und Untergrund).
- 2 Mit den Fliesenkreuzen eine Fuge von 3.5 mm vorsehen.
- 3 Am Ende die Oberfläche sorgfältig reinigen und alle Reste von Stuck oder Kleber entfernen.

SUGGERIMENTI

# POSA A SECCO SU ERBA

La disposizione delle lastre è libera in funzione dei percorsi e dell'effetto estetico.

E' possibile semplicemente appoggiare le lastre sul manto erboso, oppure incassarle al livello del prato, per facilitare il passaggio della falciatrice e limitare il rischio di inciampo.

SUGGESTIONS LAYING DRY ON

## GRASS

The tiles can be arranged freely in relation to the paths and the required appearance. It is possible to simply rest the tiles on the grass, or to fit them in at the level of the lawn, to make it easier for the mowing machine to pass and to limit the risk of tripping.

- 1 Once the positions of the tiles have been decided upon, remove the grassy surface for a depth of about 5 mm.
- 2 Place a layer of fine gravel or sand in the empty space to level it and stabilise the tile.
- 3 Position the tile, checking that it is flat and correcting this if necessary.

CONSEILS POSE A SEC SUR

## HERBE

La disposition des carreaux est libre, en fonction des parcours et de l'effet esthétique. Il est possible de poser simplement les carreaux sur l'herbe, ou de les encastrer au niveau du pré, pour faciliter le passage de la tondeuse à gazon et limiter les risques de chute.

- 1 Une fois que la position des carreaux aura été décidée, éliminer l'herbe sur une profondeur d'environ 5 cm.
- 2 Installer une couche de gravillon ou de sable pour mettre de niveau et stabiliser le carreau.
- 3 Placer le carreau et s'assurer qu'il est bien à plat, corriger si nécessaire.

TIPPS

## TROCKENVERLEGUNG AUF GRAS

Freie Anordnung – die Platten lassen sich jederzeit entfernen und neu verlegen. Der Kies gestattet eine optimale Ableitung des Regenwassers.

- 1 Mit einer Maurerschienen den Untergrund nivellieren.
- 2 Die Anordnung bestimmen und dazu die Fliesen auf dem Boden verlegen.
- 3 Die Fliesen präzise verlegen und dazu eine Stange als Abstandshalter (oder Fliesenkreuze bei enger Verlegung) verwenden, um die Ausrichtung zu verbessern.

SUGGERIMENTI

# POSA A SECCO SU **GHIAIA-SABBIA**

La disposizione è libera, le lastre sono sempre rimovibili e riposizionabili in qualsiasi momento.  
La ghiaia assicura un ottimo drenaggio dell'acqua piovana.

SUGGESTIONS LAYING DRY ON

## **GRAVEL AND SAND**

The tiles can be freely arranged, and removed and repositioned at any time.  
The gravel ensures excellent drainage of rainwater.

- 1 Flatten the surface of the foundation with the help of a levelling bar.
- 2 Choose the pattern, arranging the tiles on the ground.
- 3 Position the tiles exactly, using a bar to space them out (or cross spacers if positioned close together) to improve the alignment.

CONSEILS POSE A SEC SUR

## **GRAVIER - SABLE**

La disposition est libre, les carreaux peuvent toujours être retirés et remis en place à tout moment.  
Le gravier assure un excellent drainage de l'eau de pluie.

- 1 A l'aide d'une règle, mettre le support de niveau.
- 2 Choisir la disposition en plaçant les carreaux au sol.
- 3 Mettre les carreaux en place avec précision, en utilisant une barre comme entretoise (ou des croisillons en cas de pose rapprochée) pour améliorer l'alignement.

TIPPS

## **TROCKENVERLEGUNG AUF KIES SAND**

Freie Anordnung – die Platten lassen sich jederzeit entfernen und neu verlegen.  
Der Kies gestattet eine optimale Ableitung des Regenwassers.

- 1 Die Stützen in angemessenem Abstand verlegen.
- 2 Die Platten anbringen und bei Bedarf die Planarität der Oberflächen durch Regulieren der Unterlagen verbessern.
- 3 Zur Verbesserung der Belastungsfähigkeit einen Fuß in der Mitte der Fliese positionieren.

# SUGGERIMENTI POSA SOPRAELEVATA SU **SUPPORTI**

Il sistema è completamente a secco, quindi ispezionabile e riutilizzabile.  
Può compensare le irregolarità del sottofondo, e nascondere cavi elettrici o sistemi di irrigazione.

## SUGGESTIONS LAYING RAISED ON **SUPPORTS**

The system is completely dry and can therefore be inspected and re-used.  
It can offset the irregular surfaces of the foundation and hide wiring or irrigation systems.

- 1 Position the supports at a suitable distance.
- 2 Put the tiles in place, correcting flatness of the surface by adjusting the supports as necessary.
- 3 Position a small support under the centre of the tile so as to increase its resistance to loads.

## CONSEILS POSE SURELEVEE SUR **SUPPORTS**

Ce système est complètement à sec, c'est-à-dire qu'il peut être inspecté et réutilisé.  
Il peut compenser les irrégularités du support et dissimuler câbles électriques ou les systèmes d'irrigation.

- 1 Mettre en place les supports à la distance adéquate.
- 2 Mettre les carreaux en place. Si nécessaire, perfectionner la planéité de la surface en réglant les supports.
- 3 Placer un plot au centre du carreau pour accroître la résistance aux charges.

## TIPPS **ERHÖHTE VERLEGUNG AUF UNTERLAGEN**

Dieses System ist für eine trockene Verlegung konzipiert und kann von daher kontrolliert und erneut verwendet werden.  
Es gleicht Unregelmäßigkeiten des Untergrunds aus und eignet sich zum Verlegen von Stromkabeln oder Bewässerungssystemen.

- 1 Die Stützen in angemessenem Abstand verlegen.
- 2 Die Platten anbringen und bei Bedarf die Planarität der Oberflächen durch Regulieren der Unterlagen verbessern.
- 3 Zur Verbesserung der Belastungsfähigkeit einen Fuß in der Mitte der Fliese positionieren.

# CHIAVE DI REGOLAZIONE PER I SUPPORTI

I supporti regolabili "Pedestal", protetti da brevetto internazionale, offrono molteplici soluzioni per compensare piccole imperfezioni e grandi pendenze di qualsiasi piano di posa così da realizzare sempre pavimentazioni perfettamente stabili e piane. L'esclusiva chiave di regolazione, elemento essenziale del sistema, permette la regolazione dei supporti (e conseguentemente del pavimento soprastante) anche a pavimento finito evitando pertanto di doverlo sollevare.

The "Pedestal" paving supports, which is protected by international patent, offer multiple solutions to compensate for small imperfections and large gradients of any laying surface so as to always achieve a very stable and perfectly flat floor. The unique adjustment key, an essential element of the system also allows the control of the paver supports (and consequently the floor above) even with a finished floor thus avoiding having to lift the tile.

Les supports réglables "Pedestal", protégés par un brevet international, offrent de multiples solutions pour compenser les petites imperfections et grandes pentes de tous types de plan de pose pour toujours réaliser un pavement parfaitement stable et plat. L'exclusive clef de réglage, élément essentiel du système, permet de régler les supports (et par conséquent du pavement surélevé) même a pavement terminé sans pour autant soulever les dalles.

Die einstellbaren Stelzlager „Pedestal“, durch internationales Patent geschützt, bieten eine Vielfältigkeit an Lösungen zum Ausgleich von kleinen Mängeln und starken Neigungen des Untergrundbodens, das Ergebnis sind immer perfekt stabile und ebene Fußböden. Der besondere Anpassungsschlüssel, ein wesentliches Element des Systems, gewährleistet die Einstellung der Stelzlager (folglich auch des Oberbodens), auch nach bereits verlegtem Boden, ohne diesen anheben zu müssen.

**1** Aggancio testa-vite. L'aggancio sulla testa evita la fuoriuscita della testa dalla sede del supporto SE. Coupling head-screw. The coupling on the head prevents the escape of the head from the seat of SE support. Attache tête-vis. L'attache sur la tête évite de faire sortir la tête du plot SE. Kupplungskopf. Die Kupplung auf dem Kopf vermeidet das Abrutschen des Stelzlagerkopfes SE.

**2** Aggancio testa-vite. L'aggancio sulla testa evita la fuoriuscita della testa dalla sede del supporto NM. Coupling head-screw. The coupling on the head avoids the leakage of the head from the seat of NM Support. Attache tête-vis. L'attache sur la tête évite de faire sortir la tête du plot NM. Kopf-Schraubenverbindung- Die Kupplung auf dem Kopf vermeidet das Abrutschen des Stelzlagerkopfes NM

## COMPENSATORE DI PENDENZA TWIST TW 110 E TW 150 TWIST SLOPE COMPENSATOR TW 110 AND TW 150 COMPENSATEUR DE PENTE TWIST TW 110 E TW 150 AUSGLEICHSSCHEIBE TWIST TW 110 UND TW 150

Ogni compensatore di pendenza Twist, da posizionare sopra la testa dei supporti, consente l'inclinazione da 0% fino a 1%. E' possibile utilizzare più compensatori insieme, sommandoli tra loro, fino a raggiungere la percentuale di livellamento desiderato. In presenza di travetti in alluminio il compensatore è da posizionarsi sotto la base dei supporti.

Chaque compensateur de pente Twist, à placer sur la tête des plots NM, permet une inclinaison de 0% à 1%. Il est possible d'utiliser plusieurs compensateurs, jusqu'à obtenir le pourcentage de nivelage désiré. En présence de lambourdes en aluminium le compensateur est à positionner sous la base des plots.

Jede Ausgleichsscheibe Twist wird auf den Kopf der Stelzlager angebracht und gewährleistet eine Neigung von 0% auf 1%.. Man kann mehrere Ausgleichsscheiben gleichzeitig verwenden, bis der gewünschte Prozentanteil der Nivellierung erreicht ist. Bei Vorhandensein von Aluminiumbalken ist die Ausgleichsscheibe unterhalb der Stelzlagerbasis anzubringen.

Every Twist slope regulation disc, to be placed over the head of Pedestals, allows a regulation of 1% slope. More Twist regulation discs can be used, to reach the desired slope degree of regulation. In case of aluminum joist usage, Twist slope regulation disc has to be placed under the base of the Pedestals.

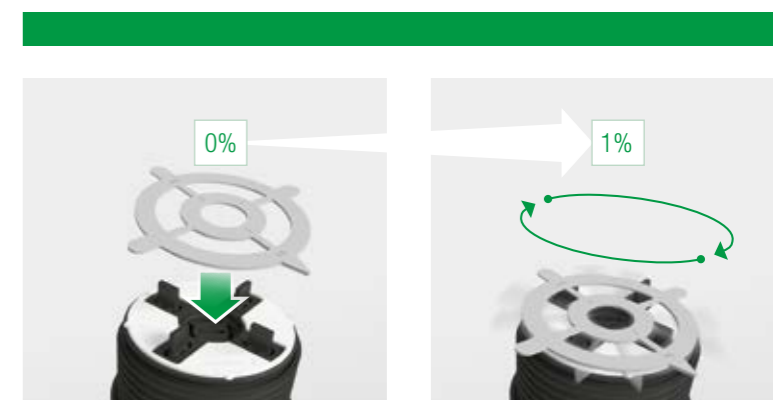

- 1 Compensatore di pendenza Twist fino a 1% di regolazione della pendenza
- 2 Compensatori di pendenza Twist fino a 2% di regolazione della pendenza

## ETERNO SUPPORTO AUTOLIVELLANTE REGOLABILE CON TESTA IN BI-MATERIALE (PP + GOMMA) ADJUSTABLE PAVING SUPPORT "ETERNO" WITH SELF-LEVELLING BI-MATERIAL HEAD "ETERNO" SUPPORT AUTO-NIVELANT REGLABLE AVEC TETE EN BI-MATERIAU (PP + CAOUTCHOUC) "ETERNO" SELBSTNIVELLIERENDE VERSTELLBARE STÜTZE MIT KOPF AUS BI-MATERIAL (PP + GUMMI)

### VANTAGGI:

- Testa autolivellante che compensa automaticamente pendenze fino al 5%
- Regolabile da 28 a 550 mm con pavimento finito grazie all'esclusiva chiave di regolazione
- Base di appoggio liscia di 320 cm<sup>2</sup>
- Totalmente riciclabile
- Resistente a temperature da -40° a +120°C
- Resistente agli acidi, all'invecchiamento, ai raggi UV
- Utilizzabile con qualsiasi pavimentazione da esterno autoportante
- Protetto da BREVETTO internazionale
- Testa con parte superiore in gomma antirumore ed antiscivolamento
- Alette facilmente asportabili
- Test di carico a rottura certificati

### AVANTAGES:

- Tête auto-nivelante qui compense automatiquement des pentes jusqu'à 5%
- Réglable de 28 mm à 550 mm avec plancher fini grâce à la clef de réglage
- Base de pose lisse de 320 cm<sup>2</sup>
- Totalement recyclable
- Résistant à des températures de -40° à +120°
- Résistant aux acides, au vieillissement, aux rayons UV
- Utilisable avec tous types de planchers extérieurs autoportants
- Protégé par un brevet international
- Tête avec la partie supérieure en caoutchouc anti-bruit et antiglisse
- Ailettes facilement détachables
- Test de résistance certifié

### ADVANTAGES:

- Self-leveling head that automatically compensates slopes up to 5%
- Adjustable height from 28 to 550 mm once pavement is finished thanks to exclusive adjusting key
- 320 cm<sup>2</sup> smooth base support
- Entirely recyclable
- Resistant to temperatures between -40° to 120°C
- Resistant to acids and ultraviolet deterioration
- Suitable to any self-supporting outdoor paving system
- Protected by international PATENT
- Head with top in soft non-slip and anti-noise rubber
- Tabs easy to remove
- Test of tensile strength certified

### VORTEILE:

- Selbstnivellierender Kopf, der automatisch Gefälle bis zu 5% ausgleicht
- Regulierbar von 28 auf 550mm bei bereits fertigem Boden dank des speziellen Anpassungsschlüssels
- Stützfuß glatt 320 cm<sup>2</sup>
- Vollständig recyclebar
- Beständig gegen Temperaturen von -40° bis +120°
- Beständig gegen säurehaltige Lösungen, Alterung, UV- Strahlen.
- Zur Anwendung bei jeder Art von selbsttragenden Außenbodenbelägen
- Durch internationales Patent geschützt
- Kopf, Oberteil mit Gummi für Anti Lärm- und Abrutschschutz
- Abstandhalter zur einfachen Entfernung
- Zertifizierter Bruchlast-Test

L'unicità della testa basculante del supporto regolabile ETERNO sta nell'auto-livellamento che permette di compensare automaticamente pendenze fino al 5%. Questa tecnologia rende la posa dei supporti estremamente rapida, consentendo di creare in poco tempo un pavimento perfettamente piano.

The unique feature of the swiveling head of the ETERNO adjustable support is in the self-leveling that allows to automatically compensate any gradient up to 5% thus greatly reducing the time needed to create a perfectly flat floor.

L'unicité de la tête basculante du support réglable ETERNO est l'auto nivelage qui permet de compenser automatiquement une pente jusqu'à 5%. Cette technologie rend la pose des plots extrêmement rapide et permet de créer en peu de temps un sol parfaitement plat.

Die Einzigartigkeit des neigbaren Kopfes des Stelzlagers ETERNO beruht auf der Selbstnivellierung, die automatisch Neigungen bis zu 5% ausgleicht. Diese Technologie gewährleistet eine extrem schnelle Montage, das Ergebnis ist in kurzer Zeit ein perfekt nivellierter Boden.

## TESTA PER SUPPORTO CENTRALE REGOLABILE DALLA BASE HEAD FOR CENTRAL SUPPORT, ADJUSTABLE FROM BASE TÊTE POUR PLOT CENTRAL RÉGLABLE DE LA BASE KOPF FÜR DAS ZENTRALE STELZLAGER VON DER BASIS AUS REGULIERBAR

L'uso del "Supporto Centrale" da posizionarsi al centro della piastra, conferisce maggiore portata alla pavimentazione. Il supporto si regola agendo sulla base tenendo ferma la testa, senza l'ausilio della chiave di regolazione.

The use of the "Central Support" to be placed at the center of the plate, gives greater resistance to the floor. The support is adjusted by acting on the base while holding the head, without the aid of the adjustment key.

L'utilisation du "support central" à positionner au centre de la dalle, offre une meilleure porte eau pavement. Le support se règle en agissant sur la base et en tenant la tête fixe, sans l'aide de la clef de réglage.

Der Einsatz des „zentralen Stelzlagers“, das in der Mitte der Platte zu positionieren ist, gewährleistet dem Bodenbelag die höchstmögliche Tragfähigkeit.

Das Stelzlager wird bei feststehendem Kopf durch Drehen, ohne Hilfe des Anpassungsschlüssels, angepasst.

Misura piastre Paving slab size Mesure dalle Plattengröße	Quantità m <sup>2</sup> Pieces per m <sup>2</sup> Quantité m <sup>2</sup> Menge m <sup>2</sup>
cm 60 x 60	2,78 supporti/pcs

## CALCOLO PER IL CONSUMO PER M<sup>2</sup> CON QUALSIASI FORMATO DI PIASTRA

Calculation of consumption per m<sup>2</sup>, for any tile dimension  
Calcul pour la consommation par m<sup>2</sup> avec tout format de dalle  
berechnung für den verbrauch für m<sup>2</sup> mit allen plattenformaten

LATO PIASTRA (mt) x LATO PIASTRA (mt): 100  
1 mt / RISULTATO = INCIDENZA  
SLAB SIDE (mt) x SLAB SIDE (mt): 100  
1m / RESULT = INCIDENCE  
Coté dalle (mt) x Coté dalle (mt): 100  
1 mt / résultat = incidence  
PLATTENGRÖÙE (mt) x PLATTENGRÖÙE (mt): 100  
1m / ERGEBNIS = INZIDENZ

Esempio: PIASTRA 60 cm x 30 cm  
mt 0,6 x mt 0,3 = 0,18  
1 (m<sup>2</sup>) / 0,18 = 5,55 pz/m<sup>2</sup>  
Example: SLAB 60 cm x 30 cm  
mt 0,6 x mt 0,3 = 0,18  
1/0,18 = 5,55 pcs/m<sup>2</sup>  
Example: SLAB 60 cm x 30 cm  
mt 0,6 x mt 0,3 = 0,18  
1/0,18 = 5,55 pcs/m<sup>2</sup>

## COMPENSATORE DI PENDENZA TWIST TW 110 TWIST SLOPE COMPENSATOR TW 110 COMPENSATEUR DE PENTE TWIST TW 110 AUSGLEICHSSCHEIBE TW 110

Ogni Compensatore di pendenza Twist, da posizionare sulla testa dei supporti NM, consente l'inclinazione da 0% fino a 1%: opportunamente abbinati e regolati assicurano la perfetta planarità di qualsiasi pavimentazione.  
Each Twist slope compensator, to be placed on the head of NM supports, allows the inclination from 0% up to 1% degree: suitably matched and adjusted to ensure the perfect flatness of any pavement.  
Chaque compensateur de pente Twist, à placer sur la tête des plots NM, permet une inclinaison de 0% à 1%: combinés et réglés de la juste manière ils assurent un pavement plane.  
Jede Ausgleichsscheibe Twist wird auf den Kopf der Stelzlager NM angebracht und gewährleistet eine Neigung von 0% auf 1%: richtig angebracht und reguliert, garantieren sie die perfekte Ebenheit jeder Art von Bodenbelag.

# SUPPORTO REGOLABILE **STAR.T**

Star.T è il supporto per pavimentazioni esterne più sottile sul mercato, il più adattabile e personalizzabile, l'unico sempre regolabile grazie all'ormai famosa "chiave di regolazione", il solo capace di realizzare qualsiasi pavimento rendendo semplice ogni progetto outdoor, domestico o contract. Grazie ai suoi ridotti ingombri è un ottimo alleato per le ristrutturazioni: Star.T è in grado di regolare la sua altezza da 8 mm fino a 30 mm e può sopraelevare qualsiasi tipo di pavimento in ceramica, cemento o materiale composito, di qualsiasi formato e peso. La regolazione millimetrica di Star.T permette di ottenere pavimentazioni eleganti e perfettamente in bolla, accorciando così i tempi di posa e conferendo stabilità e precisione a tutta la pavimentazione. La Prolunga Star.T è l'unica adattabile allo Star.T, che permette di raggiungere le altezze dei supporti regolabili NM1 ed SE0; un'unica misura per un prodotto versatile e semplice: si posiziona sotto lo Star.T aumentando la sua escursione di 5 mm con la possibilità di sovrapporre ulteriori Prolungha Star.T in caso di necessità.

Star.T it's the thinnest exterior elevated floor pedestal in the world, extremely adaptable and constantly adjustable thanks to the well known adjustment key. With the possibility of laying any kind of floor on Star.T, it makes any outdoor project simple, whether you're doing it by yourself or hiring contractors. Its compact size makes Star.T a perfect pedestal for renovation. Star.T is adjustable from 8 to 30 mm and it's compatible with any type of ceramic, concrete, or composite material floor of any size and weight. The millimetric adjustment of Star.T allows to obtain elegant and perfectly flat floors, reducing installation costs with guarantee of stability and precise result. Star.T Extension is the only one that fits Star.T, that enables to reach NM1 and SE0 adjustable supports; only one height for a versatile and simple product. It is placed under Star.T, increasing its height by 5 mm with the possibility to add more Star.T Extensions on top of each other in case of need of more elevation.

Un plot pour plancher extérieur n'a jamais été aussi fin, il s'appelle Star.T et il est destiné à révolutionner le marché : le plus adaptable et personnalisable surtout pour les restructurations, l'unique toujours réglable grâce à la fameuse « clef de réglage », le seul capable de réaliser n'importe quel type de plancher rendant simple chaque projet outdoor, domestique ou publique. Grâce à son encombrement minimum c'est un allier optimal dans la restructuration : Star.T est capable de satisfaire les plus épaisseurs grâce à sa partie fixe qui mesure seulement 8 mm, pour après être réglé de 10 mm jusqu'à 30 mm, surélevant n'importe quel type de plancher en céramique, ciment ou matériel composite de n'importe quel format ou poids. Le réglage millimétrique du Star.T permet d'obtenir des planchers élégants et parfaitement à niveau, raccourcissant comme cela les temps de pause tout en étant très stable et précis. La rallonge Star.T est l'unique adaptable au Star.T, qui permet d'atteindre la hauteur des plots NM1 et SE0 ; une hauteur unique pour un produits versatile et simple : il se positionne sous le Star.T en augmentant sa hauteur de 5 mm et ses multiples avec la possibilité de super poser plusieurs rallonges si besoin.

Star.T ist das dünnste, anpassungsfähigste und flexibelste Stelzlager für Außenböden auf dem Markt, es ist das einzige, die dank des mittlerweile berühmten "Anpassungsschlüssels" laufend angepasst werden kann, das einzige, das jeden Bodenbelag ermöglicht und jedes Projekt im Außenbereich, Innenbereich oder Gewerbebereich zu einer einfachen Sache macht. Dank seiner reduzierten Dimension, ist es ein optimaler Verbündeter für Renovierungen: Star.T kann seine Höhe von 8 auf 30mm regulieren, es kann jeden Boden, sei es Keramik, Zement oder gemischtes Material, jedes Format und Gewicht, anheben. Die exakte, millimetergenaue Einstellung von „Star.T“ gewährleistet elegante, perfekt geebnete Böden und außerdem verringert sich die Verlegezeit und gewährleistet dem gesamten Boden Stabilität und Präzision. „Star.T“ ist die einzig für Star.T passende Erweiterung und ermöglicht die Verbindung mit den einstellbaren Auflagen „NM1“ und „SE0“; eine einzige Höhe für ein vielseitiges und einfaches Produkt; sie werden unter „Star.T“ positioniert, wodurch die Höhe um 5 mm gesteigert wird. Falls nötig, können zusätzliche Erweiterungen darübergelegt werden.

## SIMBOLOGIA

SYMBOLS / LÉGENDE / SYMBOLE

I simboli rappresentati nella legenda sottostante indicano le caratteristiche tecniche e le condizioni d'impiego raccomandate.  
I simboli di ciascuna serie sono riportati nelle pagine dei dati tecnici a fine serie.

The symbols in the key below indicate the technical characteristics and the recommended use conditions.  
The symbols of each series are indicated in the technical data sheets at the series end.

Les symboles représentés de la légende ci-dessous indiquent les caractéristiques techniques et les conditions d'utilisation recommandées.  
Les symboles de chaque série sont indiqués sur les pages des données techniques en fin de série.

Die in untenstehender Legende aufgelisteten Symbole bezeichnen die technischen Eigenschaften und empfohlenen Einsatzbedingungen.  
Die Symbole jeder Serie sind auf den Seiten mit den technischen Daten am Ende der jeweiligen Serie veranschaulicht.

Variatione delle sfumature di colore:

la sfumatura o sfumature nelle piastrelle variano da pezzo a pezzo e da produzione a produzione, quando possibile è consigliabile controllare che pezzi provenienti da una singola produzione abbiano variazioni di sfumatura accettabili, qualsiasi domanda o dubbio sulla scelta delle mattonelle dovrebbe essere chiarita prima della posa.

Color shade variations:

The color shade of every tile varies from piece to piece and from each production. At least several pieces from the same production should be reviewed whenever possible in order to determine acceptable color shade variations. Any questions or concerns about your tile selection should be clarified before fixing.

Variation des nuances de couleur:

Le dénuancement ou les dénuancements des carreaux varient d'une pièce à l'autre et d'une production à l'autre. Lorsqu'il est possible, il est conseillé de contrôler que des pièces provenant d'une même production aient des différences de nuances acceptables. Toute demande ou doute concernant le choix des carreaux devrait être formulé et résolu avant la pose.

Variation der Farbnuancen:

Die Nuance oder Nuancen der Fliesen ändern sich von Stück zu Stück und von Produktion zu Produktion. Sofern möglich ist es ratsam zu kontrollieren, dass Teile, die aus einer einzigen Produktion kommen, annehmbare Variationen der Nuancen aufweisen. Alle Fragen oder Zweifel über die Wahl der Fliesen sollten vor der Verlegung geklärt werden.
